# Welcome to Patriot Health

We are pleased to provide high quality, cost containment solutions for you and your family.

## The Patriot Difference

Exceptional customer service is what sets Patriot Health apart from the competition. Our entire CCC staff undergoes an intensive two-month training and mentoring program on all systems and programs.

This attention to detail has resulted in our CCC team having the knowledge required to be experts in their field with the desire to provide exceptional service. We insist on working with individuals who care for the customer as they would for a close friend or family member.

Technical processes and plan specifics can be learned, but it is very difficult to alter the genuine care one person has for another.

That is the Patriot Difference!
